

# ZAUGG

MASTERS OF SNOW

## BULLDOGG

EVERY SNOW.  
EVERY APPLICATION.  
ZAUGG CONVINCED. SINCE **1893**.

## Compact. Powerful. Reliable.

The Bulldogg is the agile, compact version of the Snow-beast – designed for anyone who refuses to compromise, even in winter. Fitted with a powerful petrol engine, this machine impresses with its reliability, ease of use and impressive pulling power.

Whether on terraces, car parks or driveways, in front of restaurants, ski huts and mountain railways, or when clearing winter hiking trails – the Bulldogg quickly and efficiently ensures safe, snow-free surfaces. Its compact design allows for precise operation even in confined spaces, whilst its robust technology delivers full performance even in challenging conditions. Thanks to its compact design, the machine can be transported by mountain railway.

### The benefits for you at a glance:

**Time-saving:** Fast and efficient snow clearance

**Safety:** Non-slip surfaces for guests, customers and staff

**Flexibility:** Ideal for a wide range of applications

**Reliability:** A powerful petrol engine for everyday use in winter

The Bulldogg is more than just a snow-clearing machine – it is your reliable partner for professional winter maintenance that makes an impression and ensures safety.
