

Rolba 1500

**EVERY SNOW.
EVERY APPLICATION.**

ZAUGG AG. Expertise, quality and patented solutions.

ROLBA1500

The Rolba 1500 self-propelled snow blower impresses with its high performance and ease of use. Equipped with a modern EU Stage V diesel engine, it meets all current emission standards and is ready for demanding applications.

It is conveniently controlled via joystick and display, which guarantees precise work and easy handling. Thanks to front, rear, all-wheel, and crab steering, the Rolba 1500 can handle even tight spaces with ease.

The hydraulically tiltable cover provides quick and easy maintenance, allowing optimal access to the engine compartment. Optionally, the machine can be equipped with a pre-cutter to efficiently remove overhanging snow drifts.

Rolba 1500 – Your solution for maximum performance and flexibility in winter service.

Technical data

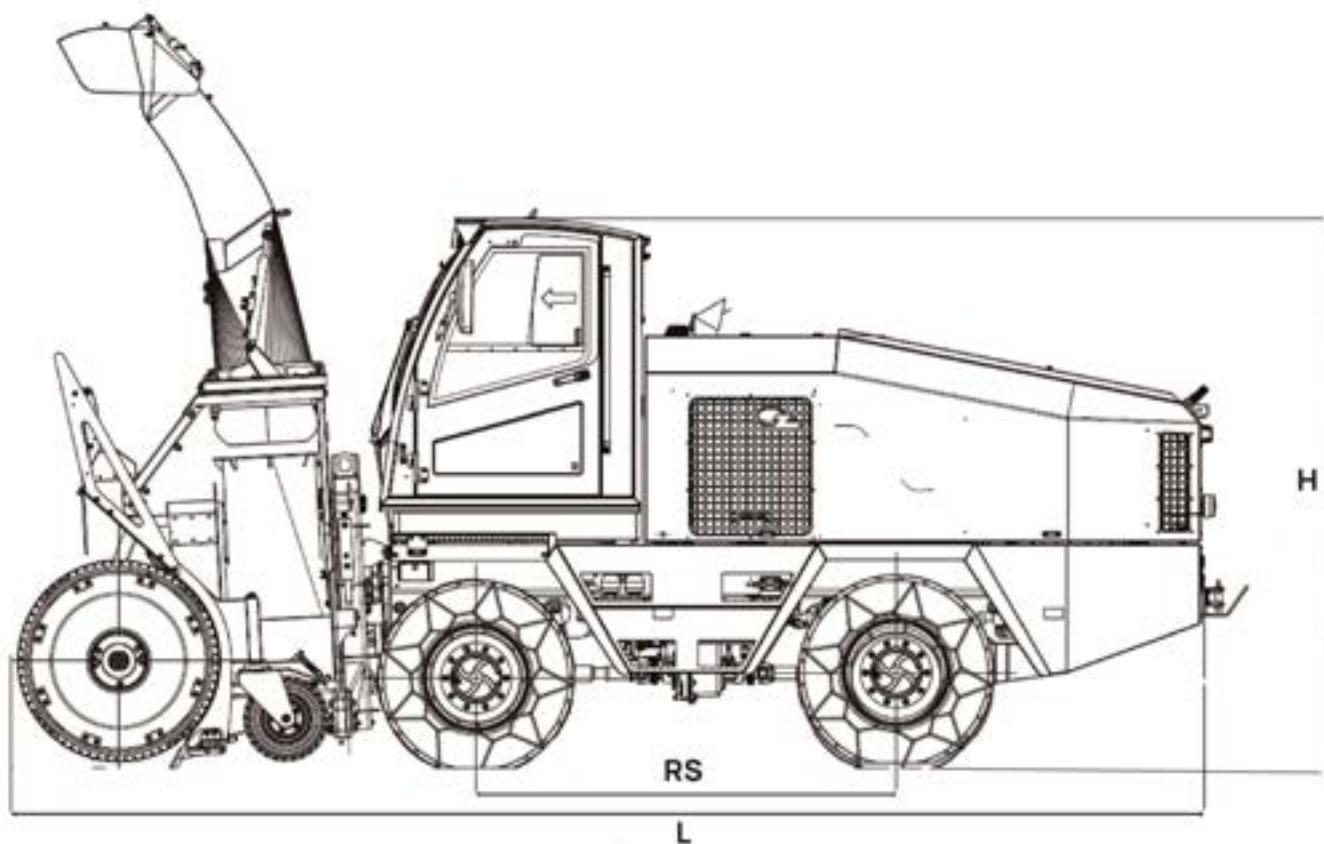

Rolba 1500 mit two-stage snow blower

Clearing capacity	bis 3'500 t/h
Clearing widths	2'500 mm
Clearing height in one pass	1'500 mm
Casting distance	bis zu 40 m
Truning radius	12 m
Clearing speed	0.3 - 40 km/h
Engine power	321 kW / 436 hp
Fuel tank	700 Liter
Total weight	12'000 kg

Cabin interior and exterior

ROLBA1500

Dimensionen Rolba 1500

Value

Total length	6'500 mm
Wheelbase	2'300 mm
Vehicle width	2'200 mm
Vehicle height	3'200 mm
